

Elcometer 138 Bresle Kit & Patches

Elcometer 138 Bresle Kit & Patches

At a glance

- Perhaps the most recognised test for measuring surface salts in the coatings industry.
- Complete kit to meet on site test requirements & supplied with a pocket sized conductivity meter.

Elcometer 138 Bresle Kit & Patches

It is essential that the level of contaminants on a surface is measured prior to application to ensure the quality of the coating and that its optimum lifetime is achieved. If the coating is applied to a contaminated surface, which is not properly prepared, it could fail prematurely resulting in costly re-coating and high maintenance costs.

Can be used in accordance with the USN guidelines.

Surface Cleanliness

Surface contamination from salts such as chlorides, sulphates and nitrates have been shown to lead to blistering of organic coatings, particularly in immersion conditions.

It is not sufficient to measure the cleanliness of the substrate. In a multi-layer coating process, it is necessary to monitor and record the cleanliness of each layer prior to applying the next coating. When using amine cured epoxy coatings, for example, in low ambient temperatures or in high humidity, a surface oiliness or exudate may cause inter-coating adhesion failure.

Can be used in accordance with:	
ISO 8502-6	ISO 8502-9

Model	Description	Part Number
Elcometer 138	Elcometer 138 Bresle Conductivity Kit	E138----1
Accessories	1 box of 25 Bresle Patches	E135---B
	1 x 250ml Pure Water	T13011344
	3 x 5ml Syringe (without needles)	T13818517
	3 x Needles	T13818518
	1 x 30ml Beaker	T13818519
	Replacement Horiba B- 173 Conductivity Meter	T13818515
	Conductivity Calibration Solutions for Horiba B- 173	T13818516
Packing List	Elcometer 135 Bresle Patches, box of 25, Pure Water, 250ml in clear plastic bottle, 3 x 5ml Syringes, 3 x Needles (blunt), Plastic Beaker 30ml, Conductivity Meter model B-173 and Sensor, 2 x CR2032 lithium Batteries, 2 x Standard solution 1.41mS/cm, Moistening solution, Purified water (deionised water), Pi-pette, Conductivity meter storage pouch, Carrying Case & Operating instructions
